Triay & Triay has a long tradition and experience in advising clients on individual tax and residence matters; estate planning and administration; associated tax planning issues as well as advising on the establishment and/or administration of non-charitable and charitable trusts and other philanthropic ventures.

Such advice often involves the use of Gibraltar as a residence of choice for high net worth individuals given the advantages Gibraltar has or the provision of trustee and company management services through its associated company, T & T Management Services Limited.

We regularly work with individuals, families, trust corporations, fiduciaries and other professionals from a variety of different backgrounds and cultures in order to provide bespoke solutions to meet the needs of the client concerned. Our dedicated specialist team is committed to providing an excellent and specialist service to clients worldwide and is internationally recognised as a market leader in Gibraltar.

We believe that the key to delivering a successful private client service is a proper understanding

of every client's individual needs and his or her business so that we can then build a framework to properly structure, safeguard and protect the client and his or her family wealth. Where necessary, which is often the case in the structuring of private client affairs, we work with professionals in other jurisdictions in order to ensure an appropriate recommended course for the client concerned.

Through our own experience and firm understanding of the value of professional ethics, trust, family and tradition, we have a proven track record working successfully with generations of families over time.

We work with individuals, families and organisations on a range of practice areas including:

- Family Business Structuring & Tax Planning
- Private Wealth Disputes
- Fiduciary Services
- Tax & Estate Planning
- Trust & Estate Administration/Services
- Wealth Management
- Wills & Probate
- Matrimonial Disputes
